TENANT SIGN DIVIDER

available in multiple colors

If you are looking to create an affordable solution for signs with multiple panels, our Tenant Sign Divider is the way to go. Our dividers slide between your 6MM or 1/4" panels to create seamless look. If a tenant changes, replacing the panel is a breeze.

VINYL STREET SIGNS

available in white

Our Street Signs are designed to be long lasting, affordable, and attractive. These systems utilize quality materials and workmanship to insure a product that any community can be proud of. Our two-arm system comes with six inch high arms that can be lettered with vinyl or have a street plate attached. We also offer a variety of informational sign posts in different shapes and sizes.

Care and Installation

Wash vinyl products with a soft cloth or long handled soft bristle brush (similar to what you would use on your vehicle).

- If there is a stain which becomes difficult to remove, wipe down with one cup of Simple Green® or equivalent mixed with one gallon of water. The solution can be put in a spray bottle, sprayed on and wiped off quickly with a soft cloth. You can also mix 1/3 cup mild detergent such as Tide® or equivalent, 2/3 cup household cleaner such as Spic & Span® or equivalent with one gallon of water. Rinse all cleaners with water before they dry.
- Follow the precautionary instructions on the container label. Protect all vegetation from direct contact with the cleaning agent.

- 1** The first method is using direct burial. The posts would need to be buried into the ground at least 2' and stabilized with cement.
- 2** The second method would be to use wooden 4x4s to reinforce the posts. We recommend leaving a space of 12" in between the bottom vinyl rail and the top of the wooden post.
- 3** The third method is using the Ground Breaker Stake. This stake system is recommended for a short term installation or a sign that will be moved around.
