GOLF HOLE RING

Using a Golf Hole Ring helps maintain the integrity of the cup hole edges, which are being damaged at a higher rate because of the new USGA rule allowing the flagstick to be left in while putting. The bright white ring makes the hole more visible and creates the same visual effect as hole paint, without labor and clean-up. Use with the Golf Hole Ring Cup Setter to easily install the ring when setting the cup. Sold in sets of 18.

651620

GOLF HOLE RING CUP SETTER

Our powder-coated aluminum cup setter is specifically designed to install our Golf Hole Ring when setting cups. Slip a ring onto the cup setter, install the cup, give the cup setter a 1/4-turn and both the cup and ring are properly installed.

EDGE-SAVER

The Edge-Saver is an easy to use device that removes golf balls from the cup without damaging the hole. It attaches to any Par Aide flagstick and nests perfectly into the grooves of our ferrule. The ultimate sign of quality.

Nothing helps elevate the perception of course status more than cast metal course signage. But the prohibitive cost of foundry-produced cast signage can be out-of-bounds for most. Now with Par Aide's line of FusionCast signage, aluminum or bronze metal signs, plaques and markers are within reach.

Our FusionCast signage uses a patented technology that fuses metal with high density urethane (HDU), resulting in dimensional plaques and markers that look, feel and perform like foundry-poured signs, but without the excessive weight and high production costs.

This unique cold-casting technology also lets us create highly detailed customized signs. Emblazon your brand onto tee markers and plaques, in-ground tee and fairway yardage plaques, cart path pyramids, sponsor signs, facility wayfinding signs and tee signs. Every FusionCast sign is available in aluminum or bronze and adds an elegance that enhances the brand of your facility.

Par Aide FusionCast markers and signs are available in a range of stock template shapes, sizes and mounting configurations. Best of all, our FusionCast signs are proven to perform exceptionally in the harshest climates, providing the richness and rugged durability you expect from high-quality metal signage.

FusionCast® TEE SIGNS
